Dear HFSP,

Since the report on misconduct by Ajai Vyas and other researchers in Singapore awarded HFSP grants was summarily dismissed, it is now published online for discussion in the public domain. Please see www.nanyangscandal.com.

Kind regards,
Mohamed Helmy

Dear Mr. Helmy

I would like to inform you about HFSP's steps concerning the allegations of scientific misconduct against HFSP grant awardee Dr. Ajai Vyas (Nanyang Technological University Singapore) that you brought forward in your email on 3 January 2021.

In accord with the HFSP Policy on Research Misconduct and the Responsible Conduct of Research, we contacted the office of research integrity of the host institution and the researcher to inform them about the allegations. The institution also received your document and carried out an investigation into the allegations and insinuations.

We have now been informed by the NTU Office of Research Integrity that there is no evidence or basis for any claims of scientific misconduct or breaches of research integrity by Dr. Vyas that were purported in your document. Based on the outcome of this official investigation we consider your allegations against Dr. Vyas as unfounded and will close this case.

Kind regards,

Guntram Bauer
